Mr. Robert Wells,

I love my new roof! That might sound strange, but I don't have to worry when storms threaten. This new roof means there is one less thing to be concerned about.

Your crew did a great job on the installation. They were polite and did not play loud music. The job site was maintained, and upon completion, totally cleaned up.

Judy and I are very satisfied with the Cedar Shake style and cedar color roofing panels. The new roof has definitely increased the value of our home.

Thank you,

A handwritten signature in cursive script that reads "Don and Judy".
