Mr. Robert Wells
Weather Guard Factory Direct
P.O. Box 623
Trussville, AL 35173

Dear Robert:

I am writing this letter to say thank you for the great job ya'll did on my new apartment building in Bessemer. As you know this was my first metal roof after several buildings with traditional shingle roofing. I could not be more pleased with the look and confidence of this roof.

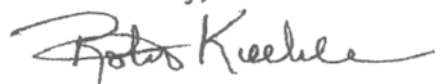

I am also very grateful for the professional and helpful work of Oliver Naylor, your salesman. He was responsive and courteous at every turn. It is a pleasure to work with such friendly folks.

Last, but surely not least, I am impressed with the timely diligent work of your installers. They worked without pause, even on Saturday and Sunday, to get me ready for my interior projects on the building.

I can with confidence, recommend your services and products. I will call you for my next projects. You will be my roofing company.

Thanks again for everything. By the way, we will be opening the new facility on December 11, 2003. Please come by and take a look.

Sincerely,

Robert D. Keeble
